

LED E27 Glass Bulb 4W Warm White
Dimmable, 120-240VAC, 50000h Life

- Rated at 4W for energy-efficient operation
- Warm white color output for residential and commercial settings
- Dimmable for adjustable light output with compatible controls
- Operates across 120-240VAC input range
- Rated LED lifetime of 50,000 hours
- Glass construction for a durable, finished appearance

OVERVIEW

The 8-E27-G4G-WW-D is a 4W LED glass bulb with an E27 base, designed for standard light sockets in residential and commercial applications. Its glass construction provides a clean, finished appearance suitable for decorative and general-purpose fixtures.

The bulb operates at 4W and produces a warm white output, offering a reduction in energy consumption compared to conventional incandescent alternatives. It includes dimming capability, allowing output adjustment when used with a compatible dimmer control, and carries a rated LED lifetime of 50,000 hours.

The bulb is backed by a 1-year warranty.
