OVERVIEW

The 8-GU10-5W-D is a dimmable LED GU10 spot light designed for standard GU10 socket installations in commercial and residential applications. Its compact 49mm diameter allows direct replacement in existing GU10 fixtures without modification.

The lamp operates at 120-240V AC and consumes 5 watts while producing 1000 lumens with an 80 CRI and a 60-degree beam angle. The dimmable driver allows light level adjustment to suit varying task or ambient requirements. It is constructed with an aluminum body finished in silver, with an LED lifetime rating of 50,000 hours to reduce maintenance intervals compared to halogen equivalents.

The product carries a 1-year warranty.
