OVERVIEW

The 8-GU10-5WW-D is a dimmable GU10 LED spot light designed for retrofit and new-construction applications in commercial and residential settings. Its GU10 base allows direct replacement into existing fixtures without modification.

This lamp operates at 5W across a 120-240V input and delivers 1000 lumens at a 3500K color temperature with a CRI of 80, producing a warm white output suited for accent and general illumination. The 60° beam angle concentrates light for spot and task applications, while the aluminum housing with a silver finish supports heat dissipation over the lamp's 50,000-hour rated life.

The lamp carries a 1-year warranty.
