

PC Frosted Cover for 2 ft T8 V-Shape Tube Light, 50,000 h Rated

- Polycarbonate construction for durability and impact resistance
- Frosted finish diffuses light and hides individual LED hotspots
- Sized to fit 2-foot T8 V-shape LED tube fixtures
- Supports fixture LED lifetime rating of 50,000 hours
- Backed by a 1-year warranty
- Removable design for easy cleaning or replacement

OVERVIEW

The PC Frosted Cover for 2 ft T8 V-Shape Tube Lights is a polycarbonate protective cover designed to fit 2-foot T8 V-shape LED tube fixtures. It is suited for commercial and industrial installations where fixture protection and light quality are both priorities.

The frosted finish diffuses output to reduce glare, eliminate visible hotspots, and conceal individual LED points, producing a uniform appearance across the fixture face. The cover also provides a degree of protection against dust and moisture, contributing to extended fixture service life. It is designed for straightforward installation and removal to facilitate cleaning or replacement.

The cover is backed by a 1-year warranty and is rated to support fixtures with an LED lifetime of 50,000 hours.
