

Frosted PC Cover for 4 ft T8 V-Shape Tube Light Fixtures, 1-Year Warranty

- Frosted polycarbonate construction diffuses light output evenly
- Sized for 4 ft T8 V-Shape tube light fixtures
- Provides dust and moisture protection for the lamp assembly
- Designed for straightforward field installation
- Backed by a 1-year warranty
- Compatible with fixtures rated for 50,000-hour LED lifetime

OVERVIEW

The 8-T8X2-CV-F-4 is a frosted polycarbonate cover designed for use with 4 ft T8 V-Shape tube light fixtures. It is intended for installations where light diffusion is required, softening output and reducing glare while maintaining broad illumination across the fixture's dual-lamp profile.

The frosted PC construction diffuses light evenly, provides a degree of dust and moisture protection for the lamp assembly, and contributes to improved overall lighting quality in the application. Installation is designed to be straightforward, making it suitable for use by contractors and maintenance personnel in commercial and industrial environments.

The cover is backed by a 1-year warranty and is compatible with fixtures rated for a 50,000-hour LED lifetime.
