- Formulated to resist yellowing over time
- Sized to fit 5-foot T8 V-shape tube light fixtures
- Backed by a 1-year warranty
- Pairs with tube lights rated for 50,000-hour LED lifetime

OVERVIEW

The PC Frosted Cover for 5 ft T8 V-Shape Tube Light Fixtures is a polycarbonate lens cover designed to fit 5-foot V-shape T8 tube light assemblies. It is suited for commercial and industrial environments where glare reduction and fixture protection are priorities.

Constructed from premium polycarbonate material, the cover provides impact resistance and is formulated to resist yellowing over time. The frosted finish diffuses light output to reduce direct glare and produce a more uniform, comfortable illumination. The cover is designed for secure, straightforward installation onto compatible tube light fixtures.

The cover is backed by a 1-year warranty and is paired with tube lights rated for a 50,000-hour LED lifetime.
