

## 4FT V-Shape Integrated LED Tube Light, 36W 4680lm 5000K, 100-277V

### OVERVIEW

The 8-T8x2-4-36-5K is a 4-foot integrated LED tube light featuring a 270° V-shape design with a built-in SMD2835 driver and aluminum heat sink. Intended for surface-mounted applications in commercial and industrial environments including warehouses, offices, retail spaces, hospitals, and schools, it replaces conventional fluorescent T8 fixtures without requiring a separate driver or ballast.

Rated at 36W with an input range of AC100–277V, this tube delivers 4,680 lumens at 5000K CCT and 130 lm/W efficacy. CRI is 80. Power factor exceeds 0.95 and THD is 20% or below. The aluminum housing supports a rated lifespan of 50,000 hours and is suitable for operating temperatures from -4°F to 113°F (-20°C to 45°C). The V-shape PC cover provides wide-angle illumination across a 270° beam.

The fixture is ETL Listed and RoHS compliant. It contains no mercury, supporting responsible disposal and environmental compliance. A 5-year/3-year warranty applies per manufacturer terms; confirm applicable tier at time of purchase.
