

## LED Integrated Double-Row Tube Light, 50W 5FT 5000K, 100-277VAC

### OVERVIEW

The Lumipro D2 Series 5FT Double-Row Integrated LED Tube is a commercial-grade linear fixture designed for direct-wire installation in supermarkets, warehouses, offices, schools, hospitals, and similar high-use environments. Its double-row SMD2835 LED configuration and 120° beam angle deliver broad, even illumination across wide spaces.

The fixture operates at 50W with an input range of AC100–277V and delivers a rated efficacy of 130 lm/W. The aluminum heat sink provides effective thermal management, supporting a rated lifespan of 50,000 hours. The unit is suitable for operating temperatures from -20°C to 45°C (-4°F to 113°F). Built-in driver with power factor greater than 0.95 and THD at or below 20% supports stable performance across varying electrical environments.

This product carries RoHS compliance. The fixture is offered with a 3-year warranty per the manufacturer's standard commercial terms. Contractors should verify applicable local electrical codes prior to installation, as input voltage compatibility should be confirmed against the specific circuit supply.

### SPECIFICATIONS

<b>Power</b>	50 W	<b>Input voltage</b>	AC 100–277V V
<b>Luminous flux</b>	6500 lm	<b>Dimensions</b>	59.25 x 1.38 x 1.30 in
<b>CCT</b>	5000 K	<b>Rated life</b>	50000 hr
<b>CRI</b>	80	<b>Warranty</b>	5 yr
<b>Beam angle</b>	120 °	<b>Operating temp</b>	-20 to 45 °C
<b>IP rating</b>	IP20
