

16-Inch Power Cable for V-Shape Dual T8 LED Tube Fixtures, 3×0.75mm²

- 16-inch (40.64 cm) cable length for V-shape dual T8 fixture connections
- Conductor rating of 3×0.75mm² for stable power delivery
- Designed specifically for V shape tube 8-T8×2 fixtures
- Compact cable design supports flexible fixture positioning during install
- Backed by a 1-year warranty

OVERVIEW

The 8-T8×2-Cable16 is a 16-inch (40.64 cm) power cable designed specifically for use with V-shape dual T8 LED tube fixtures. It provides the dedicated connection required to route power to V-shaped tube light assemblies, supporting straightforward installation and flexible fixture positioning.

The cable carries a conductor rating of 3×0.75mm², supporting a stable and reliable power supply to the fixture. Its construction is intended to maintain consistent connectivity and prevent power interruptions during operation.
