OVERVIEW

The 9-CLAD-R5WW is a 3.5-inch square adjustable LED ceiling light for recessed installation in commercial and residential applications where a compact, low-profile fixture is required. The adjustable angle head allows directional aiming to suit accent or general illumination layouts.

The fixture operates on 120-240VAC and consumes 5W, producing a 3000K warm white output with a 25° beam angle suited to occupied spaces where a neutral, comfortable light quality is preferred. The aluminum housing supports heat dissipation and long-term durability, and the LED source is rated for 50,000 hours of operation. Ambient operating temperature is rated to -20°C.
