- Provides added protection to the high bay fixture from external factors

OVERVIEW

The 9-HB-RA-FL1 is a frosted lens accessory designed for use with RA Series High Bay fixtures rated at 100–150W. It is intended for commercial and industrial applications such as warehouses and large open spaces where controlled, comfortable illumination is required.

The frosted lens diffuses light output to reduce glare and improve visual comfort across the workspace. It is constructed from high-quality materials intended to provide long-term durability with minimal maintenance, while also offering a degree of protection to the high bay fixture from external factors, supporting a rated LED lifetime of 50,000 hours.

The lens accessory is backed by a 1-year warranty.
