

Frosted Lens Accessory for 100W ETL - G Series UFO Highbay

- Compatible with 100W ETL-G Series UFO Highbay fixture
- Frosted design diffuses light for softer, more uniform output
- Reduces glare and eye strain in occupied workspaces
- Mounts directly to host fixture without modification
- Supports fixture rated for 50,000 hour LED lifetime
- Backed by a 1 year warranty

OVERVIEW

The 9-HB-U100-ETL-G-FL is a frosted lens accessory designed for the 100W ETL-G Series UFO Highbay fixture (model 9-HB-U100-ETL-G). It suits commercial and industrial installations where light diffusion and glare reduction are priorities, such as warehouses, manufacturing floors, and retail spaces.

The frosted lens mounts directly to the compatible highbay housing and diffuses the fixture's output for softer, more uniform illumination. This reduces glare and eye strain in occupied work environments without requiring modification to the host fixture, which is rated for a 50,000 hour LED lifetime.

The accessory is backed by a 1 year warranty.

SPECIFICATIONS

OPTICAL

LED Lifetime 50,000 h
