- Compatible with 9-HB-U150-ETL-G 150W UFO Highbay fixture
- Frosted lens design provides even, diffused light distribution
- Rated to support 50,000-hour LED lifetime of host fixture
- Backed by 1-year warranty
- Suitable for commercial and industrial overhead installations

OVERVIEW

The 9-HB-U150-ETL-G-FL is a frosted lens accessory designed specifically for the 9-HB-U150-ETL-G 150W ETL-G Series UFO Highbay fixture. It is intended for commercial and industrial installations where uniform, diffused light distribution is required.

The frosted lens design promotes even illumination across the coverage area while providing a clean aesthetic finish suitable for visible overhead applications, and is rated to support the fixture's 50,000-hour LED lifetime.

Backed by a 1-year warranty when used with the compatible 150W ETL-G Series UFO Highbay.
