

Frosted Lens Accessory for ETL-G Series 200W UFO Highbay

- Purpose-built frosted lens for the 200W ETL-G Series UFO Highbay
- Diffuses light output to reduce glare from the host fixture
- Compatible with fixtures rated for 50,000 hour LED lifetime
- Backed by 1 year warranty coverage
- Straightforward installation on compatible UFO Highbay units

OVERVIEW

The 9-HB-U200-ETL-G-FL is a frosted lens accessory designed specifically for the ETL-G Series UFO Highbay fixture. It is intended for commercial and industrial installations where glare reduction and improved light diffusion are priorities, making it suitable for warehouses, manufacturing floors, and similar environments.

This lens delivers a soft, diffused light output that reduces harsh glare from the host 200W highbay fixture, improving visual comfort for occupants while maintaining efficient illumination. The accessory is designed for straightforward installation on compatible ETL-G Series UFO Highbay units, which carry a 50,000 hour LED lifetime rating and a 1 year warranty.
