

Architectural Linear Grid Series Suspension Embedded Accessory, Black

OVERVIEW

The 9-LG-Z-E-BK is a black-finish embedded accessory kit designed for use with the SL8860 Architectural Linear Grid Series magnetic seamless linkable linear light system. It supports embedded (exposed) installation configurations and is intended for commercial applications including offices, hospitality, libraries, and similar interior environments.

This accessory is compatible with the SL8860 series fixtures, which operate across selectable power levels and CCT settings (3000K, 4000K, 5000K) with 0-10V dimming support and input voltage ranging from AC 120–277V. The black color finish coordinates with the corresponding fixture housing option available in the series.

No certifications are confirmed in the available source data. The SL8860 series carries a 5-year manufacturer warranty; confirm applicability to accessory components with your Poli LED & Signs representative prior to specification.
