

## Architectural Linear Grid Suspension AC Wire, 6 ft, SGTW 600V 105°C, 5-Pin

### OVERVIEW

The 9-LG-Z-Wire is a 6 ft AC power wire accessory designed for use with the Architectural Linear Grid suspension lighting series. It is intended to supply line voltage to suspended linear luminaires in commercial and architectural installations, connecting via a 5-pin connector.

The wire is rated SGTW 600V with a temperature resistance of 105°C, making it suitable for the voltage ranges supported by the compatible luminaire series (AC 120–277V and AC 120–347V configurations).
