

X - Type Joint Connector for 9 - LP LED Light, 3CCT, White Finish

- X-type configuration connects four 9-LP light runs at a single joint
- Compatible with 3CCT color temperature switching setups
- White finish matches typical fixture housing color
- Backed by a 1-year warranty
- Rated for use with LEDs specified at a 50,000-hour lifetime

OVERVIEW

The 9-LP-Z-CNT-X-WT is an X-type joint connector designed to link and support 9-LP LED light runs in 3CCT configurations. It provides a secure, reliable connection point where four runs meet, simplifying layout and reducing installation time in commercial and architectural lighting applications. The white finish is intended to integrate cleanly with the fixture aesthetic.
