

Surface Mount Kit for 9-LP Linear Light Fixtures

OVERVIEW

The 9-LP-Z-Clip-SM is a surface mount kit designed for use with 9-LP series linear light fixtures. It provides a clean, low-profile mounting solution that secures fixtures directly to ceilings or surfaces without requiring complex wiring or structural modifications.

Each kit includes two stainless steel self-tapping screws (4x30) and two wall plugs (6x30), supplying the hardware needed for a complete installation. The stainless steel construction supports a secure, durable attachment suitable for commercial and light industrial environments.
