

LED Track Light Remote Dimmer
Controller, 30W Load, 120-240V,
White/Warm White

- Controls up to 30W of connected LED track lighting load
- Accepts 120-240V input for standard commercial wiring
- Switches fixtures between white and warm white output
- Includes 5-inch handheld remote for dimming control
- Rated for compatibility with LEDs at 50,000-hour lifetime
- Backed by a 1-year limited warranty

OVERVIEW

The 9-TK-C30X is a remote control dimmer designed to operate compatible LED track light fixtures in commercial and retail installations. It manages dimming and switching between white and warm white color output on interchangeable track light heads, allowing a single control unit to adjust both brightness and color character from a 5-inch handheld remote.

The controller supports a load of up to 30 watts and accepts an input voltage range of 120-240V, making it suitable for standard commercial electrical systems. It is rated for use with LED sources rated to a 50,000-hour lifetime.

This is a final-sale clearance item carrying a 1-year limited warranty.
