

2.4GHz Woven Track System Controller, 200W DC24V, IP20

OVERVIEW

The 9-TK-HA-C-2.4G is a 2.4GHz wireless controller for the Halo Series Woven Track lighting system, designed to manage DC24V LED track fixtures in commercial and residential installations including offices, hotels, retail spaces, and workshops.

The controller operates at 200W maximum load on a DC24V input and carries an IP20 rating, making it suitable for dry indoor environments. The compact aluminum housing measures 160 × 25 × 20mm, allowing for discreet integration within track system infrastructure. Rated lifespan is 20,000 hours.

No third-party certifications are confirmed for this product. A 2-year manufacturer warranty applies.

SPECIFICATIONS

Power	200 W	Input voltage	24 V
