

LED Track Light, 30W, 3CCT Selectable 3000K/4000K/5000K, ETL Listed

OVERVIEW

The LumiPro HE Series LED Track Light (9-TK-HE30WT-CCT) is a 30W COB track fixture designed for commercial and retail accent lighting applications. It accepts standard track mounting and offers selectable color temperatures of 3000K, 4000K, and 5000K to suit a range of display and ambient lighting requirements. The swing arm adjusts up and down 90 degrees, allowing precise aiming of the 29-degree beam.

The fixture delivers 2550 lumens at 30W with a CRI of 80, providing consistent color rendering across all three CCT settings. It is rated IP20, making it suitable for dry indoor environments. Input voltage is 120V. The unit is dimmable, supporting integration with standard dimming controls in commercial installations.

The LumiPro HE Series track light is ETL Listed, confirming compliance with applicable North American safety standards. It carries a 3-year warranty. Contractors and specifiers should verify project-specific code requirements prior to installation.

SPECIFICATIONS

Power	30 W	Beam angle	29 °
Luminous flux	2550 lm	IP rating	IP20
CCT	3000/4000/5000 K	Input voltage	120 V
CRI	80
