

Up/Down Wall Accent Light, 4.5W, 3-CCT, Touch Dimming, 360° Rotating, USB Rechargeable

OVERVIEW

The 9-WL-UD-3CCT-W is a rechargeable, wire-free wall accent light designed for interior accent and ambient lighting applications. Its 360° rotating head and tool-free 3M adhesive mount make it suitable for residential and light commercial installations where hardwired solutions are impractical.

The fixture draws 4.5W at DC 5V/1A and offers three selectable color temperatures: 2700K warm white, 4000K neutral white, and 5700K daylight. An integrated 2000mAh battery charges via USB. Touch control provides stepless dimming, and an included remote enables auto-shutoff timers at 0.5, 1, and 2 hours. The ABS+PC housing measures 12 x 8 x 6 cm and is available in black or white finishes. The up/down light distribution includes a supplemental spot channel for directional accent use.

SPECIFICATIONS

Power	4.5 W	Input voltage	5 V DC
CCT	2700 / 4000 / 5700 K	Dimensions	12 x 8 x 6 cm
