

## 18W 9-Inch Round LED Panel Light, 5-CCT Selectable, 0-10V & Triac Dimmable

### OVERVIEW

The A-DD-18-5CCT-W is an 18W 9-inch round LED panel from the Pure Ring Collection, designed for commercial and residential ceiling applications. Its frameless, back-lit design delivers smooth, uniform light output, and the twist-and-lock bracket system simplifies installation. The fixture supports five field-selectable color temperatures (2700K, 3000K, 3500K, 4000K, and 5000K), making it adaptable across a range of project specifications.

The panel operates at 18W and is rated for damp locations, with an operating temperature range of -10°C to +45°C. It accepts universal voltage input (100–277V AC) and supports both Triac and 0-10V dimming. Rated lamp life exceeds 50,000 hours. CRI is rated above 80, with SDCM "d6 for consistent color consistency across fixtures.

The fixture carries a 5-year warranty. ETL listing is noted in the product description; FCC and RoHS compliance are indicated in the datasheet. Surge protection is rated at 0.5kV, and flicker is specified at less than 30%.
