

GL2 Series 4.7" Round LED Downlight Kit with Driver, 3500K, Aluminum, White

- 4.7" round downlight form factor for recessed ceiling installation
- 3500K neutral white color temperature
- Aluminum housing construction
- White finish for interior ceiling integration
- Kit includes matched D-D8-12M-0.3 driver

OVERVIEW

The A-GL4.7-R12-35K-D-KIT is a GL2 Series 4.7" round LED downlight kit combining a 3500K recessed fixture with a compatible D-D8-12M-0.3 driver. It is intended for commercial and light industrial interior applications, providing a matched luminaire-and-driver solution for new construction or retrofit installations. The fixture is constructed with an aluminum housing finished in white, and the 3500K color temperature delivers a neutral white output suited to office, retail, and corridor environments.
