

GL2 Series 4.7" Square LED Driver Kit, 3500K, Aluminum Construction

- 4.7" square GL2 luminaire and driver matched kit
- Configured for 3500K correlated color temperature
- Paired with D-D8-12M/0.3 driver for ready installation
- Aluminum housing construction
- White finish

OVERVIEW

The A-GL4.7-S12-35K-D-KIT is a GL2 Series 4.7" square LED driver kit configured for 3500K correlated color temperature. The kit pairs the GL2 square luminaire with a D-D8-12M/0.3 driver, providing a matched, ready-to-install assembly suited for commercial and industrial recessed or surface-mount lighting applications.

The aluminum construction supports durability in demanding installation environments, and the white finish suits standard ceiling and surface applications.
