

GL2 Series 6.5" Round LED Downlight Kit, 3500K, D-D18M/0.3 Driver, Aluminum Housing

- 6.5-inch round downlight form factor
- 3500K neutral white color temperature
- Bundled with D-D18M/0.3 driver for matched operation
- Aluminum housing construction
- White finish

OVERVIEW

The A-GL6.5-R18-35K-D-KIT is a GL2 Series 6.5-inch round LED downlight kit operating at 3500K color temperature, bundled with a D-D18M/0.3 driver. The kit is designed for commercial and light industrial interior applications where a neutral white light output and a complete, matched luminaire-driver package are required.

The fixture housing is constructed from aluminum with a white finish, providing a coordinated appearance for ceiling installations.
