

GL2 Series 6.5" Square LED Downlight Kit with D18M Driver, 3500K

- Includes D-D18M/0.3 driver for a matched kit configuration
- 6.5-inch squared downlight form factor
- 3500K neutral white color temperature
- Aluminum housing for thermal dissipation
- White finish suited to standard ceiling installations

OVERVIEW

The GL2 Series 6.5" Square LED Downlight Kit combines a 6.5-inch squared downlight fixture with a D-D18M/0.3 driver in a single package, designed for commercial and light industrial ceiling installations. The 3500K color temperature suits retail, office, and hospitality environments where neutral white light is specified. The aluminum construction supports thermal management in recessed applications.
