

Pendant Mount Ceiling Canopy with 3 ft Wire for LED Pendant Light, Black

OVERVIEW

The A-PL-PM-BK is a pendant mount ceiling canopy in black finish, designed to support compatible LED pendant light fixtures via ceiling surface, ceiling-plus-wire, ceiling-plus-extension-rod, or H-type track adapter configurations. It is suited for retail, hospitality, gallery, and commercial interior applications where directional pendant lighting is required.

The associated LED pendant light family utilizes CREE COB LED chips with an anti-glare design and no-shadow light output. The driver is built in, carries a UL-certified rating, operates at power factor 0.98, and provides flicker-free, instant-start, noise-free performance. Triac dimming is supported across a 100% to 10% range and is compatible with Lutron, Leviton, Smart Home, and Arctic Lighting dimmers. The canopy housing measures 5.59" x 6.30" (142 x 160 mm) and is available in black or white.

No certification marks or warranty terms are confirmed in the available source data for this canopy assembly specifically. Installers should reference all applicable local and national electrical codes and mount only to a listed 4" octagonal junction box.
