

New Construction Rough-In Plate for 4 1/8" Recessed LED Downlights

- Sized at 4 1/8 inches for standard recessed downlight housings
- Designed for new construction rough-in installation phase
- Constructed from high-quality materials for durability
- Supports compatible LED downlights rated for 50000 h lifetime
- Backed by a 1 year warranty

OVERVIEW

The A-Z-PLATE4 is a new construction rough-in plate designed for recessed LED downlight installations. Sized at 4 1/8 inches, it provides a stable and secure mounting platform during the rough-in phase of construction, supporting proper positioning and wiring before finish work begins. It is suited for both residential and commercial applications.

The plate is constructed from high-quality materials intended to deliver durability and a clean, finished appearance once installation is complete. Its dimensions are engineered to accommodate standard recessed downlight housings, allowing for precise placement and seamless integration into the ceiling assembly.
