

6-Inch New Construction Rough-In Plate for Recessed LED Downlights

- Sized for 6-inch recessed LED downlight installations
- Designed for use during the new construction rough-in phase
- Compatible with recessed LED downlights rated for 50,000-hour LED lifetime
- Backed by a 1-year warranty
- Suitable for both residential and commercial ceiling assemblies

OVERVIEW

The A-Z-PLATE6 is a 6-inch new construction rough-in plate designed for recessed LED downlight installations. It provides structural support and secure mounting within the ceiling assembly during the rough-in phase, making it suitable for both residential and commercial projects.

Constructed from high-quality materials, the plate is engineered for durability and long-term performance. It is compatible with a range of recessed LED downlights and is designed to deliver a clean, finished appearance upon completion of the installation.

The plate is backed by a 1-year warranty and is compatible with recessed LED downlights rated for a 50,000-hour LED lifetime.
