

Application Tape, 12 in. x 100 yd Roll for Vinyl Graphics Transfer

- 12 in. wide roll for wide-format vinyl transfer jobs
- 100 yd roll length reduces mid-job roll changes
- Maintains alignment and spacing of cut vinyl letters and graphics
- Backed by a 1-year warranty

OVERVIEW

Application tape in a 12 in. x 100 yd roll, designed for transferring cut vinyl graphics and lettering from the carrier liner to the target substrate. Commonly used in sign fabrication and vehicle graphics workflows to maintain character spacing and alignment during installation.

The 12 in. width and 100 yd roll length suit high-volume production of decals, banners and fleet graphics, reducing the need for mid-job roll changes.

Backed by a 1-year warranty.
