

Clear Cast Acrylic Sheet, 4x8 ft, 0.177 in Thick, Paper-Protected Both Sides

- Cast acrylic construction resists impact, weathering, and UV radiation
- Measures 96 × 48 × 0.17 in and weighs 35.5 lb
- Nominal thickness of 0.177 in (3/16 in) for dimensional consistency
- Paper masking on both faces protects surface during handling and fabrication
- Backed by a 1-year warranty

OVERVIEW

This clear cast acrylic sheet measures 4 ft x 8 ft with a nominal thickness of 0.177 in (3/16 in). It is suited for display cases, signage, architectural glazing, and fabrication projects requiring optical clarity and dimensional consistency.

The sheet is cast acrylic construction, offering resistance to impact, weathering, and UV radiation. Both faces are protected by paper masking for surface protection during handling and fabrication. Its light weight relative to glass allows for straightforward cutting, shaping, and installation using standard shop tools.
