

Clear Cast Acrylic Sheet 4x8 ft, 6mm (0.236 in) Thick, Paper-Protected

- Sheet dimensions of 96 × 48 × 0.23 in for large-format projects
- Cast acrylic construction offers optical clarity exceeding standard glass
- Paper protection on both sides guards against scratches during handling
- Sheet weight of 47.08 lb supports predictable handling and shipping
- Backed by a 1-year warranty

OVERVIEW

The B-A-6mm is a clear cast acrylic sheet measuring 4 ft x 8 ft (1220 × 2440 mm) with a thickness of 0.236 in (6 mm). It is suited for signage, displays, and industrial components where optical transparency and dimensional consistency are required. This sheet provides excellent optical clarity with light transmission that exceeds standard glass. The cast construction supports strength across larger sheet sizes without sacrificing workability. Both sides are covered with a protective paper layer to prevent surface damage during shipping and fabrication.

SPECIFICATIONS

OPTICAL

LED Lifetime 50,000 h

MECHANICAL

Product Dimensions 96 × 48 × 0.23 in

Weight 47.08 lb

ORDERING

Warranty 1 y

APPLICATIONS

- Retail signage
- Display cases and fixtures
- Industrial component fabrication
- Point-of-purchase displays
- Protective glazing panels
