

Small Pedestal Base, 60-87mm Height Range, PP Material, Black Finish

- Adjustable height range of 60-87mm for grade leveling
- Constructed from polypropylene (PP) for durability
- Black finish
- Water resistant environmental rating suited to outdoor use
- Compatible with all decking models in the product line
- Backed by a 1-year warranty

OVERVIEW

The B-D1-B87-PEDESTAL is a pedestal base designed for elevated decking installations. With an adjustable height range of 60-87mm, it accommodates minor grade variations and supports level deck surface construction across a range of project types.

The base is constructed from polypropylene (PP) with a black finish and carries a water resistant environmental rating, suiting it to outdoor decking applications. It is compatible with all decking models in the product line.

The pedestal is backed by a 1-year warranty.
