

Antique Full Trellis Aluminum Post Sign Structure Kit

- Full trellis structural design for sign mounting
- Aluminum post construction
- Antique-style finish and design theme
- Supplied as a complete kit configuration

OVERVIEW

The B-F1-AT-FULL-AL-KIT is an antique-style full trellis sign structure built with an aluminum post, designed for exterior commercial signage applications. This kit configuration is suited for property entrances, retail developments, and similar installations where a traditional aesthetic is required alongside a durable structural framework.
