

Ash Wood Privacy Fence Kit with Aluminum Post

- Privacy model panel design for full visual screening
 - Ash wood panel construction for a natural finish
- Aluminum post included for structural support
 - Kit format includes panel and post components together

OVERVIEW

The B-F1-AW-PR-AL-KIT is an ash wood privacy model fence or barrier kit constructed with an aluminum post. Designed for commercial and light industrial applications, this kit combines the natural aesthetic of ash wood panels with the structural durability of an aluminum post system.

The kit is suitable for property delineation, screening, or access control installations where a solid privacy panel is required.

SPECIFICATIONS
