

WPC Composite Fence Panel 69.29" x 7.08" x 0.98" – Ash Wood Finish

OVERVIEW

The S-CF01 is a co-extruded WPC (Wood Plastic Composite) fence panel designed for commercial and residential privacy fencing applications. Each panel measures 69.29" (1760 mm) in length by 7.08" (180 mm) in width by 0.94" (24 mm) in thickness and is finished in an Ash Wood color with a 3D wood grain texture. The panel is compatible with the Suprotect aluminum framing system, which includes posts, rails, brackets, and caps.

The co-extrusion process bonds a protective polymer outer layer to a high-density recycled plastic and wood fiber core, providing resistance to moisture and UV exposure. The panel carries a rated service life of 25 years and is suitable for privacy, mid-trellis, and full-trellis fence configurations. Installation requires a 4 mm clearance gap between panels and posts. Structural framing components are aluminum with powder-coated or anodized finishes.

The Suprotect composite fence panel system carries a 10-year product warranty as stated in the manufacturer documentation.

SPECIFICATIONS

Panel Length Mm	1800 mm	Warranty	10 years
Panel Width Mm	180 mm	Rated Life Years	25 years
Panel Thickness Mm	24 mm	Material Panel	WPC (Wood Composite Polymer) co-extrusion with polymer top layer
Panel Length In	70.87 in	Material Frame	Aluminum
Panel Width In	7.08 in	Certifications	CE, SGS, ISO
Panel Thickness In	0.94 in	Uv Protection	true
Post Section Mm	80 x 80 mm	Waterproof	true
Post Length Mm	1800 mm
