

## WPC Composite Fence Panel 69.29" x 7.08" x 0.98" – Dark Grey

### OVERVIEW

The S-CF01 is a co-extruded WPC (Wood Plastic Composite) fence panel designed for commercial and residential perimeter fencing applications. Each panel measures 69.29" (1760 mm) in length by 7.08" (180 mm) in width by 0.94" (24 mm) in thickness and is available in a Dark Grey finish. The co-extrusion process bonds a protective polymer outer layer to a high-density recycled plastic and wood fiber core, producing a 3D wood grain texture with enhanced dimensional stability.

The panel is rated for outdoor exposure with waterproof construction and UV protection. Rated service life is 25 years. Compatible aluminum structural components — including posts, rails, brackets, base plates, and caps — are powder-coated or anodized for corrosion resistance. Panels are compatible with Privacy, Mid-Trellis, and Full-Trellis system configurations using the same aluminum framing hardware.

The Suprotect composite fencing system carries a 10-year product warranty as stated in the manufacturer documentation.

### SPECIFICATIONS

<b>Length Mm</b>	1800 mm	<b>Material</b>	WPC (Wood Composite Polymer) co-extrusion with aluminum structural components
<b>Width Mm</b>	180 mm	<b>Panel Weight Kg</b>	14.7 kg
<b>Thickness Mm</b>	24 mm	<b>Post Dimensions Mm</b>	80 x 80 x 1800 mm
<b>Warranty</b>	10 years	<b>Certifications</b>	CE, SGS, ISO
<b>Rated Life Years</b>	25 years	<b>Available Colors</b>	Ashwood, Antique, Teak, Walnut, Ipe, Dark Grey

### INSTALLATION
