

WPC Composite Fence Panel 69.29" x 3.54" x 0.98" — Ipe Color

OVERVIEW

The S-CF02 is a co-extruded WPC (Wood Composite Polymer) fence panel in Ipe color, measuring 3.54" (90mm) wide x 0.98" (25mm) thick x 69.29" (1760mm) long. It is designed for use in privacy, mid-trellis, and full-trellis fence configurations compatible with the Suprotect aluminum framing system.

The panel uses a co-extrusion process that bonds a protective polymer outer layer to a high-density recycled plastic and wood fiber core. This construction provides waterproof performance and UV protection. The material carries a 25-year rated life. The 3D wood grain texture in Ipe color is matched to coordinate with the full range of Suprotect panel colors and aluminum structural components.

The system datasheet lists CE, SGS, and ISO certifications for the Suprotect composite fence panel product line; however, these certifications have not been individually confirmed for this specific SKU. A 10-year warranty is stated in the product documentation.

SPECIFICATIONS

Length Mm	1800 mm	Color	IPE
Width Mm	90 mm	Warranty	10 years
Height Mm	24 mm	Rated Life Years	25 years
Weight Kg	2.64 kg	Certifications	CE, SGS, ISO
Material Panel	WPC (Wood Plastic Composite) co-extrusion	Environmental Rating	Waterproof, UV protection
Material Frame	with polymer top layer	Panel Model	S-CF02

INSTALLATION

PRIVACY DESIGN (L1800MM*W900MM/ L5.9FT*H3.9FT)
