

## WPC Composite Fence Panel 69.29" x 3.54" x 0.98" – Teak

### OVERVIEW

The S-CF02 is a co-extruded WPC (Wood Plastic Composite) fence panel in Teak finish, measuring 3.54" (90mm) wide x 0.94" (24mm) thick x 69.29" (1760mm) long. It is designed for use in privacy, mid-trellis, and full-trellis fence configurations in commercial and residential applications, and is compatible with the aluminum post, rail, and bracket system offered in the Suprotect fencing line.

The panel is constructed using a co-extrusion process that bonds a protective polymer outer layer to a high-density recycled plastic and wood fiber core. This capped construction provides resistance to moisture and UV exposure. The surface features a 3D wood grain texture. Rated service life is 25 years, and the material carries a 10-year product warranty per the manufacturer's published documentation.

Certification data was not confirmed in the available source material for this specific SKU. Installers should refer to the published installation guide for post embedment depth, panel gap requirements, and compatible hardware specifications.

### SPECIFICATIONS

<b>Length Mm</b>	1800 mm	<b>Rated Life Years</b>	25 years
<b>Width Mm</b>	90 mm	<b>Material</b>	WPC (Wood Composite Polymer) co-extrusion
<b>Height Mm</b>	25 mm	<b>Frame Material</b>	Aluminum
<b>Weight</b>	2.64 kg	<b>Certifications</b>	CE, SGS, ISO
<b>Warranty</b>	10 years	<b>Environmental Rating</b>	Waterproof, UV protection
