

Full Trellis Kit, Ipe Wood, Aluminum Post

- Full trellis configuration for complete structural assembly
- Ipe wood construction for trellis components
- Aluminum post for structural support
- Kit format supplies all components for one installation

OVERVIEW

The Ipe Full Trellis Model with Aluminum Post is a complete trellis kit combining Ipe wood trellis members with an aluminum structural post. It is intended for outdoor architectural and commercial installations requiring a ready-to-assemble shade or landscape structure.

The kit pairs the durability of an aluminum post with the natural appearance of Ipe wood for the trellis components, offering a combined-material design suited to exterior settings.
