

Ipe Mid Trellis LED Sign Post Kit, Black Finish, Post-Mount Design

- Mid-height trellis-style post design for structured sign support
- Black finish for a uniform commercial appearance
- Compatible with Ipe series signage installations
- Post-mount configuration suited for freestanding sign display
- Intended for both exterior and interior signage applications

OVERVIEW

The Ipe Mid Trellis LED Sign Post Kit is a mid-height, trellis-style sign post assembly finished in black, designed for use within the Ipe series of signage systems. It provides a structured mounting solution for exterior or interior sign display in commercial and light industrial settings.

The post kit uses a trellis-style frame to support signage panels at a mid-height profile, suited for applications where a freestanding or post-mounted display is required rather than wall or ceiling mounting.
