

Aluminum Post Cap for 3.14" x 3.14" Fence Posts, 3.46" x 3.46" x 1.29"

OVERVIEW

The B-F1-POST-CAP is an aluminum post cap designed to terminate and protect the top of 3.14" x 3.14" (80 x 80 mm) aluminum fence posts used in Suprotect wood composite fencing systems. It provides a clean, finished appearance at the post head and is a standard component across privacy, mid-trellis, and full-trellis fence configurations.

The cap measures 3.46" x 3.46" x 1.29" (85 x 85 x 33 mm) and is constructed from aluminum. Finish options include powder-sprayed black or custom colors, as well as power-coated and anodized silver tones, consistent with the aluminum structural components used throughout the Suprotect fencing system.
