

Full Trellis LED Sign Kit, Teak Finish, Black Post, Exterior Monument Signage

- Teak - style finish delivers a natural wood - grain appearance
- Black post provides visual contrast against the teak sign face
- Full trellis configuration spans the entire sign width
- Kit format includes both sign panel and post assembly
- Designed for exterior monument and wayfinding sign installations

OVERVIEW

The B-F1-TK-FULL-BK-KIT is a full trellis - style LED sign kit finished in a teak aesthetic with a black post. Designed for commercial and light industrial exterior signage applications, this kit provides a decorative monument or wayfinding sign solution suited for property entrances, retail centers, and managed developments.

The full trellis configuration spans the complete sign width, pairing a teak - toned finish with a black post for visual contrast against landscaping and building exteriors.
