

Teak Mid Trellis Sign Holder with Black Post

- Teak finish on trellis frame
 - Black post construction
- Mid trellis model configuration
 - Kit format for sign holder assembly

OVERVIEW

The B-F1-TK-MID-BK-KIT is a mid trellis sign holder finished in teak with a black post, designed for commercial signage display applications. This kit configuration is suited for property identification, wayfinding, or directional signage installations where a structured, post-mounted presentation is required.
