

# Walnut Full Trellis Aluminum Post Sign Kit

- Walnut finish on sign frame
- Aluminum post construction
- Full trellis frame configuration
- Kit format for complete sign assembly

## OVERVIEW

The B-F1-WL-FULL-AL-KIT is a full trellis-style sign kit finished in walnut with an aluminum post, designed for exterior or interior identification and wayfinding applications in commercial and light industrial settings. The full trellis frame configuration provides a structured mounting solution suitable for property signage, facility entrances, and similar professional installations.
