

Sign Post Kit, Walnut Privacy Model, Black Post Finish

- Walnut material used for the sign panel face
- Black finish applied to the mounting post
- Privacy Model panel configuration for sightline screening
- Complete kit includes both post and panel components
- Post-mounted design suited for freestanding installation

OVERVIEW

The B-F1-WL-PR-BK-KIT is a walnut-finished Privacy Model sign post kit configured with a black post. It is intended for commercial and light industrial signage installations requiring a complete, post-mounted display solution.

The kit pairs a walnut panel with a black-finished post in a privacy-oriented configuration, suited for property managers and contractors seeking a coordinated post-and-panel sign assembly for site or perimeter signage.
