

Aluminum Composite Panel, White, 4 ft x 8 ft x 3 mm, 1-Year Warranty (Discontinued)

- 4 ft x 8 ft sheet size with 1/8-inch (3 mm) overall thickness
- 0.21 mm aluminum skin bonded for added rigidity and stability
- White color finish that is easy to clean and maintain
- Weather-resistant and fire-resistant construction for exterior use
- Backed by a 1-year manufacturer warranty
- Rated service life of 50,000 hours

OVERVIEW

The Alum-Bond White aluminum composite panel is a lightweight, rigid construction panel measuring 4 ft x 8 ft with a 1/8-inch (3 mm) thickness. It is suited for both interior and exterior architectural applications, including signage substrates, wall cladding, and decorative facades.

The panel features a white color finish that is easy to clean and maintain. The aluminum composite construction, built from a 0.21 mm aluminum layer bonded to a core, provides added strength and dimensional stability while keeping overall weight low for straightforward handling and installation. The material is noted for weather resistance and fire-resistant properties, supporting use in demanding environments.

The panel carries a 1-year warranty and a rated service life of 50,000 hours.
