

PVC Board, White, 4 ft x 8 ft x 3/8 in,
Indoor/Outdoor Substrate

- Full sheet dimensions of 96 × 48 × 0.31 in for large-format fabrication
- 3/8-inch (approximately 8mm) thickness for structural rigidity
- White PVC construction resists moisture and environmental exposure
- Weighs 20 lb per sheet for manageable handling and installation
- Suitable for both indoor and outdoor signage and display applications
- Backed by a 1-year warranty

OVERVIEW

The B-PB8 is a white PVC board measuring 4 ft x 8 ft x 3/8 in, intended for commercial and industrial applications including signage substrates, displays, and partitions. Its full-sheet format provides a workable surface area suitable for fabrication, routing, and mounting.

The 3/8-inch thickness provides structural rigidity appropriate for both indoor and outdoor installations. The board is constructed from PVC, offering resistance to moisture and environmental exposure without the degradation associated with wood-based substrates.

The product carries a 1-year warranty.
