

Lightweight PVC Board Panel, 47 in x 96 in

- Panel dimensions of 47 in x 96 in for large-format applications
 - Lightweight PVC construction eases handling and installation
 - Smooth surface finish supports sign graphics and display work
- Weather-resistant composition suited to exterior installations
 - Can be cut or trimmed to custom sizes without losing rigidity
 - Backed by a 1-year warranty

OVERVIEW

The B-PBL12 is a PVC board panel measuring 47 in x 96 in, intended for use across a range of indoor and outdoor commercial and industrial applications. Its lightweight construction makes it manageable for installation, while its rigid composition supports structural integrity even when cut or trimmed to custom dimensions.

The panel features a smooth surface finish suitable for signage, fabrication, and display applications. It is weather-resistant, making it appropriate for exterior environments across multiple industries.

The product carries a 1-year warranty.
